PROJECTS

REST-API, 1 Weeks

user Authentication with jwt token base rest-api, and also accepted forget password via email. Link: https://authenticatbyabir.vercel.app/

Quiz app, 1 Weeks

In this project i used firebase as a database and use firebase authentication to authorised users . & this project completely done with react core (context api and hooks). there was don't use any global store like as redux.. only row react.

Chat app, 2 Weeks

This is a multiple-page realtime chat application & which

SOCIAL LINKS

- https://github.com/Jonty-Abir

build with node express & ejs , or to reach the realtime flavour here i used socket.io, MongoDb as a Database. JWT token base authentication.
